

São Paulo, January 10th 2022

Dear Valued Customer,

Kindly be informed that as far from February 01st 2022, Cosco will be releasing a new payment option on its payment's platform, the PIX tool.

Although payments via PIX are immediate, internal systems need to be updated and processes assigned.

We intend to release processes paid by PIX until midday, on the same day in the afternoon, but the below rules must be observed to make it happen.

- ✓ The PIX must be generated on our platform (<https://santos.coscoshipping.com.br/pagamentos/>), and It will be valid for two hours; after that, a new key should be created.
- ✓ The Counter procedures (submission of necessary documents and releasing time) must be followed.

Yours sincerely,

COSCO Shipping Lines (Brazil)
